CAREER OBJECTIVES.

I really love teaching science subjects with specifications to chemistry and geography. My goal is to make these subjects exciting for students. I want them to understand why these subjects matter and how they relate to the world around them. By using fun experiments and real-life

examples, I hope to spark their curiosity and help them become curious, thoughtful learners who care about the world.

SKILLES

❖ **CLASSROOM MANAGEMENT:**

Ability to create a positive and inclusive learning environment, effectively manage student behavior, and maintain a focused atmosphere for learning.

❖ **Curriculum Development:**

Skill in designing engaging and comprehensive lesson plans, aligning with educational standards, and adapting curriculum to meet the diverse needs of students.

❖ **Differentiated Instruction:**

Capacity to recognize and address the varied learning styles, abilities, and interests of students through personalized teaching strategies and activities

❖ **Assessment and Evaluation:**

Proficiency in developing fair and effective assessment methods to evaluate student progress and understanding, providing constructive feedback for growth.

❖ **Communication Skills:**

Strong verbal and written communication skills to effectively convey information, explain complex concepts, and engage with students, parents, and colleagues.

WORK EXPERIENCE / EXTRACURRICULAR ACTIVITIES

I have over 1 year of experience in the education industry as a science teacher working with a variety of schools including both governmental and private schools for both secondary and primary schools. I have successfully completed my internship and teaching practices

As a teacher, I have consistently delivered engaging and effective lessons that meet the needs of my students while staying within the constraints of time and resources. My expertise in educational strategies and curriculum development allowed me to create high-quality learning experiences that align with curriculum standards and student needs. Through careful planning and execution, I ensure that my lessons are both impactful and efficient, fostering student growth and achievement.

PROFILE & COMPETENCIES.

As a teacher, I possess outstanding organizational and interpersonal abilities, which enable me to create a supportive and engaging learning environment for my students. My familiarity with software development complements my teaching skills, allowing me to integrate technology seamlessly into classroom activities and projects.

I uphold high integrity, honesty, and a strong sense of duty, prioritizing the well-being and growth of my students above all else. I thrive in environments where I can work autonomously, demonstrating the capacity to excel with little direction while consistently meeting deadlines and producing quality work.

Collaboration and teamwork are integral to my approach, as I believe in fostering a sense of community and mutual support among students and colleagues. I am a quick learner, continuously seeking opportunities to expand my knowledge and adapt to new teaching methodologies and technologies.

Overall, I am committed to providing a dynamic and enriching educational experience that empowers students to reach their full potential and prepares them for success in an ever-evolving world.

ADDITIONAL SKILLS

I am proficient in utilizing the Internet, email, and Microsoft Office applications including Word, Excel, PowerPoint, and Publisher to enhance communication, collaboration, and instructional delivery in the classroom.
